

Déterminer le volume de ces pavés droit, sachant qu'ils sont constitués de petits cubes de 1cm de côté.

*La Providence – Montpellier***CORRIGE – M. QUET**

Figure 1 :  $6 \times 4 = 24 \text{ cm}^3$

Figure 2 :  $2 \times 4 \times 3 = 24 \text{ cm}^3$

Figure 3 :  $6 \times 2 \times 3 = 36 \text{ cm}^3$

Figure 4 :  $5 \times 2 \times 4 = 40 \text{ cm}^3$

Figure 5 :  $3 \times 4 \times 2 = 24 \text{ cm}^3$

Figure 6 :  $3 \times 4 \times 13 = 156 \text{ cm}^3$

Figure 7 :  $4 \times 6 \times 7 = 168 \text{ cm}^3$
